Primary Industries
Aligned Teacher Delivery Program

AHC20122 Certificate II in Agriculture • 2026 source register • Teacher/RTO master

Use this master after local confirmation
This program connects the 22 current Staffroom program templates, their 26 source-coded unit entries and reviewed authenticated resources. It does not select a local elective pathway, approve a practical, state assessment sufficiency, make a competency decision or replace current RTO procedures.

Control	Recorded value
Artifact ID	primary-industries-program-architecture-v1
Document version	1.0 candidate
Generated from reviewed data	2026-09-02
Authority	Authenticated Resources section of the VET Statewide Staffroom, Primary Industries area
Qualification wording in source	AHC20122 Certificate II in Agriculture
Framework wording in source	Primary Industries
Registered source programs	22
Registered source-coded unit entries	26
Curated authenticated resource pointers	65
Status	Candidate — Teacher/RTO confirmation and local adoption required

Authoritative source area: Open Primary Industries in the VET Statewide Staffroom

Local adoption and sign-off

Local field	Local entry	Local field	Local entry
School / delivery site		Local RTO	
Cohort / course year		Qualification pathway / electives	
Program coordinator		Delivery teachers	

Local field	Local entry	Local field	Local entry
Local version		Adoption date	
Authorised by		Signature / approval record	

Controlled-material boundary
No answer material, learner work, controlled instrument contents, assessment conditions or private records are reproduced here. Links point to authenticated departmental sources. Confirm the current authorised assessment destination, version and conditions before assessment use (PI-TC-04).

Program navigation

Use the stable task ID to join the task guide, source program, resource register and planned/actual ledger. Source filenames and source task titles remain separately visible where they differ.

Seq.	Stable ID	Task / program	Source family	Guide
1	hsc-3-1	3.1 Chemicals and weeds	HSC program	Go to guide
2	hsc-3-2	3.2 Work health and safety	HSC program	Go to guide
3	hsc-3-3	3.3 Environmentally sustainable work	HSC program	Go to guide
4	hsc-3-4	3.4 Weather observation and reporting	HSC program	Go to guide
5	hsc-3-5	3.5 Working and communicating in industry	HSC program	Go to guide
6	hsc-3-6	3.6 Livestock health and welfare	HSC program	Go to guide
7	hsc-3-7	3.7 Plant pests, diseases and disorders	HSC program	Go to guide
8	task-3	Task 3 — Tractors and machinery	Non-HSC task program	Go to guide
9	task-4	Task 4 — Machinery and equipment biosecurity	Non-HSC task program	Go to guide
10	task-10	Task 10 — Electric fencing	Non-HSC task program	Go to guide
11	task-11	Task 11 — Farm fencing	Non-HSC task program	Go to guide
12	task-12	Task 12 — Provide feed for livestock	Non-HSC task program	Go to guide
13	task-13	Task 13 — Monitor water supplies	Non-HSC task program	Go to guide
14	task-14	Task 14 — Identify and mark livestock	Non-HSC task program	Go to guide

Complete task and source-unit register

All 22 current source program files and all 26 source-coded unit entries are retained. The hours below are source-stated NESA indicative values, not local planned or actual hours.

Seq.	Stable ID	Task / program	Unit code	Source unit title	Status	Source hrs	Source program
1	hsc-3-1	3.1 Chemicals and weeds	AHCCHM201	Apply chemicals under supervision	Elective	20	Open program
1	hsc-3-1	3.1 Chemicals and weeds	AHCPMG201	Treat weeds	Elective	10	Open program
2	hsc-3-2	3.2 Work health and safety	AHCWHS202	Participate in work health and safety processes	Mandatory	15	Open program
3	hsc-3-3	3.3 Environmentally sustainable work	AHCWRK211	Participate in environmentally sustainable work practices	Mandatory	15	Open program
4	hsc-3-4	3.4 Weather observation and reporting	AHCWRK210	Observe and report on weather	Elective	15	Open program
5	hsc-3-5	3.5 Working and communicating in industry	AHCWRK212	Work effectively in industry	Mandatory	20	Open program
5	hsc-3-5	3.5 Working and communicating in industry	AHCWRK213	Participate in workplace communications	Elective	10	Open program
6	hsc-3-6	3.6 Livestock health and welfare	AHCLSK222	Care and Welfare of livestock	Stream	20	Open program
7	hsc-3-7	3.7 Plant pests, diseases and disorders	AHCPMG202	Treat plants, pests, diseases and disorders	Elective	20	Open program
8	task-3	Task 3 — Tractors and machinery	AHCMOM202	Operate tractors	Elective	20	Open program
8	task-3	Task 3 — Tractors and machinery	AHCMOM304	Operate machinery and equipment	Elective	15	Open program
9	task-4	Task 4 — Machinery and equipment biosecurity	AHCBIO203	Inspect and clean machinery, tools and equipment to preserve biosecurity	Elective	10	Open program
10	task-10	Task 10 — Electric fencing	AHCINF205	Carry out basic electric fencing operations	Elective	10	Open program
11	task-11	Task 11 — Farm fencing	AHCINF206	Install, maintain and repair farm fencing	Elective	11	Open program
12	task-12	Task 12 — Provide feed for livestock	AHCLSK229	Provide feed for livestock	Elective	10	Open program
13	task-13	Task 13 — Monitor water supplies	AHCLSK227	Monitor water supplies	Elective	10	Open program
14	task-14	Task 14 — Identify and mark livestock	AHCLSK225	Identify and mark livestock	Elective	10	Open program
15	task-15	Task 15 — Plant trees and shrubs	AHCPGD207	Plant trees and shrubs	Elective	20	Open program

Seq.	Stable ID	Task / program	Unit code	Source unit title	Status	Source hrs	Source program
16	task-16	Task 16 — Recognise plants	AHCPCM204	Recognise plants	Elective	20	Open program
17	task-17	Task 17 — Plant propagation	AHCNSY207	Undertake propagation activities	Elective	20	Open program
18	task-18	Task 18 — Soil and growing-media sampling	AHCSOL203	Assist with soil or growing media sampling and testing	Elective	15	Open program
19	task-19	Task 19 — Pot up plants	AHCNSY205	Pot up plants	Elective	10	Open program
20	task-20	Task 20 — Care for nursery plants	AHCNSY206	Care for nursery plants	Elective	15	Open program
21	task-21	Task 21 — Prepare livestock for competition	AHCLSK355	Prepare livestock for competition	Elective	15	Open program
22	task-22	Task 22 — Observe and handle livestock	AHCLSK223	Carry out regular livestock observation	Elective	10	Open program
22	task-22	Task 22 — Observe and handle livestock	**ACHLSK224**	Handle livestock using basic techniques	Elective	10	Open program

Source warning retained: Task 22 states ACHLSK224 in the source. It remains source-stated here and must be confirmed through PI-TC-03 before formal RTO or enrolment use.

Source architecture

Selection boundary
All 22 current 2026 source program files are registered. Their inclusion does not claim that one school or cohort delivers every elective, stream or source-indicative hour.

Program group	Source-aligned purpose	Registered tasks
HSC work practices	Source-mapped HSC programs for chemicals, WHS, sustainability and weather.	hsc-3-1 — 3.1 Chemicals and weeds; hsc-3-2 — 3.2 Work health and safety; hsc-3-3 — 3.3 Environmentally sustainable work; hsc-3-4 — 3.4 Weather observation and reporting
HSC industry and production	Source-mapped HSC programs for industry communication, livestock welfare and plant health.	hsc-3-5 — 3.5 Working and communicating in industry; hsc-3-6 — 3.6 Livestock health and welfare; hsc-3-7 — 3.7 Plant pests, diseases and disorders
Machinery and biosecurity	Non-HSC source programs for tractors, machinery and biosecurity cleaning workflows.	task-3 — Task 3 — Tractors and machinery; task-4 — Task 4 — Machinery and equipment biosecurity
Farm infrastructure	Non-HSC source programs for electric and conventional farm fencing.	task-10 — Task 10 — Electric fencing; task-11 — Task 11 — Farm fencing
Livestock operations	Non-HSC source programs for feed, water, identification, competition, observation and handling.	task-12 — Task 12 — Provide feed for livestock; task-13 — Task 13 — Monitor water supplies; task-14 — Task 14 — Identify and mark livestock; task-21 — Task 21 — Prepare livestock for competition; task-22 — Task 22 — Observe and handle livestock
Plants, soils and nursery	Non-HSC source programs for planting, recognition, propagation, soils and nursery care.	task-15 — Task 15 — Plant trees and shrubs; task-16 — Task 16 — Recognise plants; task-17 — Task 17 — Plant propagation; task-18 — Task 18 — Soil and growing-media sampling; task-19 — Task 19 — Pot up plants; task-20 — Task 20 — Care for nursery plants

Source limitations carried into this master

- All 22 source Registration columns are blank.
- Teaching Strategies cells are blank or contain only a direction to the teacher to add or integrate strategies and resources.
- The source programs therefore support curriculum mapping and workflow architecture, but not a claim that ready-to-run practical, formative or assessment activities were supplied.
- NESA indicative-hour values are source metadata and must not be copied into local planned or actual hours without PI-TC-01 confirmation.

Program-use boundary

Boundary	Meaning
Purpose	Teacher master navigator and source-aligned delivery-program architecture.
Selection	All 22 current 2026 source program files are registered. Their inclusion does not claim that one school or cohort delivers every elective, stream or source-indicative hour.
Assessment	No assessment sufficiency, competency, result, learner evidence or controlled instrument is represented.

Boundary	Meaning
Planned / actual	Source-indicative hours remain separate from blank local planned and actual fields.

Direct authenticated resource register

These are reviewed, metadata-safe pointers to files in the authenticated VET Statewide Staffroom. A direct file action is primary; departmental sign-in may be required. Contents remain in the source system.

Chemicals and weeds

1. 3.1 Chemicals and weeds

Stable ID hsc-3-1 • HSC program • HSC work practices

Source task title: Task 3.1 – Chemicals (Chemicals and Weeds)
Primary source program: 3.1 Chemicals - VET Teaching Program TEMPLATE.docx

Source unit code	Source unit title	Source status	Source indicative hours
AHCCHM201	Apply chemicals under supervision	Elective	20
AHCPMG201	Treat weeds	Elective	10

Learning intentions

- Interpret source-mapped labels, safety data, instructions and workplace requirements for supervised chemical handling and weed treatment.
- Prepare, use and finalise chemical application equipment and treatments within supervisor and workplace directions.
- Record conditions, applications and incidents where required by the source-mapped workplace procedures.

Six-column source-mapped delivery sequence

Use these rows to plan and register locally approved teaching and practice. The source supplies workflow headings and intentions, not ready-to-run activities or assessment evidence rules.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Prepare to treat weeds and handle chemicals**	Delivery intention: Interpret source-mapped labels, safety data, instructions and workplace requirements for supervised chemical handling and weed treatment. **Open source program: 3.1 Chemicals - VET Teaching Program TEMPLATE.docx** Matched authenticated resource: ALEP22 Apply Chemicals WEB3	AHCCHM201; AHCPMG201 Task 3.1 – Chemicals (Chemicals and Weeds)	Source workflow is evident. 7. 3.7 Plant pests, diseases and disorders

Stable ID hsc-3-7 • HSC program • HSC industry and production

Source task title: Task 3.7 – Plant pests, diseases and disorders
Primary source program: 3.7 Treat plants - VET Teaching Program TEMPLATE.docx

Source unit code	Source unit title	Source status	Source indicative hours
AHCPMG202	Treat plants, pests, diseases and disorders	Elective	20

Learning intentions

- Prepare to identify and treat source-mapped plant pests, diseases and disorders under supervision.
- Follow authorised treatment directions and local workplace controls.
- Carry out source-mapped post-treatment operations and records.

Six-column source-mapped delivery sequence

Use these rows to plan and register locally approved teaching and practice. The source supplies workflow headings and intentions, not ready-to-run activities or assessment evidence rules.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Prepare to treat plant pests, diseases and disorders**	Delivery intention: Prepare to identify and treat source-mapped plant pests, diseases and disorders under supervision. Open source program: 3.7 Treat plants - VET Teaching Program TEMPLATE.docx	AHCPMG202 Task 3.7 – Plant pests, diseases and disorders	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Reading; Writing; Numeracy; Oral communication; Navigate the world of work; Get the work done.
P: ____ A: ____	**Source-mapped workflow**	**Apply authorised treatments under supervision**	Delivery intention: Follow authorised treatment directions and local workplace controls. Open source program: 3.7 Treat plants - VET Teaching Program TEMPLATE.docx	AHCPMG202 Task 3.7 – Plant pests, diseases and disorders	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Reading; Writing; Numeracy; Oral communication; Navigate the world of work; Get the work done.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Carry out post-treatment operations**	Delivery intention: Carry out source-mapped post-treatment operations and records. **Open source program: 3.7 Treat plants - VET Teaching Program TEMPLATE.docx**	AHCPMG202 Task 3.7 – Plant pests, diseases and disorders	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Reading; Writing; Numeracy; Oral communication; Navigate the world of work; Get the work done.

Practical support boundary
The source provides mapped workflow headings, not a locally approved practical. Confirm supervision, facilities, equipment, PPE and procedures through PI-TC-05 before use.

Formative support boundary
Source-mapped foundation-skill demands: Reading; Writing; Numeracy; Oral communication; Navigate the world of work; Get the work done. The source identifies foundation-skill demands but does not provide a completed formative activity or populate the Registration column.

Curated task resources

Current source program — 3.7 Treat plants - VET Teaching Program TEMPLATE.docx
No additional task-specific file passed the conservative public-metadata review. Use the current source program and the whole-program resource register.

Teacher/RTO confirmations before local use

ID	Decision to confirm	Due before	Local record / date
PI-TC-01	Confirm local RTO, cohort, selected qualification pathway/electives, calendar, delivery order and planned hours.	Adopting the master navigator as the local delivery program	
PI-TC-02	Confirm how the HSC filename sequence 3.1-3.7 relates to the source task titles, including the 3.6 file whose internal title reads Task 6.	Local task numbering is printed or copied into assessment records	
PI-TC-04	Confirm the current authorised assessment task destinations, versions, conditions and controlled instruments.	Assessment orientation or formal evidence collection	
PI-TC-05	Confirm local procedures, supervision, equipment, PPE, chemicals, livestock, plant, machinery, biosecurity, farm access, environmental controls and work-placement arrangements.	Each affected practical or workplace activity	

Local delivery registration

Local field	Local entry	Local field	Local entry

Local field	Local entry	Local field	Local entry
Planned sequence		Planned start / finish	
Planned hours		Actual start / finish / hours	
Teacher initials		Delivery evidence checked	
Adjustments / access notes		Variance / follow-up	

Boundary: Curriculum and delivery mapping only; not assessment sufficiency, competency, or authorisation to disclose a controlled instrument.

8. Task 3 — Tractors and machinery

Stable ID task-3 • Non-HSC task program • Machinery and biosecurity

Source task title: Task 3 – Operate tractors
Primary source program: Task 3 - Operate tractors & machinery - VET Teaching Program TEMPLATE.docx

Source unit code	Source unit title	Source status	Source indicative hours
AHCMOM202	Operate tractors	Elective	20
AHCMOM304	Operate machinery and equipment	Elective	15

Learning intentions

- Prepare source-mapped tractors, machinery and equipment for use under confirmed local controls.
- Follow supervised operating workflows and instructions.
- Complete source-mapped post-operation procedures.

Six-column source-mapped delivery sequence

Use these rows to plan and register locally approved teaching and practice. The source supplies workflow headings and intentions, not ready-to-run activities or assessment evidence rules.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Prepare tractors, machinery and equipment for operation**	Delivery intention: Prepare source-mapped tractors, machinery and equipment for use under confirmed local controls. **Open source program: Task 3 - Operate tractors & machinery - VET Teaching Program TEMPLATE.docx** Matched authenticated resource: Pre-Start-Meetings-Job-Safety-Analysis-JSA-and-Safe-Work-Instructions-SWI-Tractor-and-Machinery-Operations	AHCMOM202; AHCMOM304 Task 3 – Operate tractors	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Reading; Writing; Oral Communication; Numeracy; Navigate the world of work.
P: ____ A: ____	**Source-mapped workflow**	**Operate tractors, machinery and equipment under required supervision**	Delivery intention: Follow supervised operating workflows and instructions. **Open source program: Task 3 - Operate tractors & machinery - VET Teaching Program TEMPLATE.docx** Matched authenticated resource: Pre-Start-Meetings-Job-Safety-Analysis-JSA-and-Safe-Work-Instructions-SWI-Tractor-and-Machinery-Operations	AHCMOM202; AHCMOM304 Task 3 – Operate tractors	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Reading; Writing; Oral Communication; Numeracy; Navigate the world of work.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Complete tractor, machinery and equipment operations**	Delivery intention: Complete source-mapped post-operation procedures. **Open source program: Task 3 - Operate tractors & machinery - VET Teaching Program TEMPLATE.docx** Matched authenticated resource: Pre-Start-Meetings-Job-Safety-Analysis-JSA-and-Safe-Work-Instructions-SWI-Tractor-and-Machinery-Operations	AHCMOM202; AHCMOM304 Task 3 – Operate tractors	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Reading; Writing; Oral Communication; Numeracy; Navigate the world of work.

Practical support boundary
The source provides mapped workflow headings, not a locally approved practical. Confirm supervision, facilities, equipment, PPE and procedures through PI-TC-05 before use.

Formative support boundary
Source-mapped foundation-skill demands: Reading; Writing; Oral Communication; Numeracy; Navigate the world of work. The source identifies foundation-skill demands but does not provide a completed formative activity or populate the Registration column.

Curated task resources

Current source program — Task 3 - Operate tractors & machinery - VET Teaching Program TEMPLATE.docx

- Pre-Start-Meetings-Job-Safety-Analysis-JSA-and-Safe-Work-Instructions-SWI-Tractor-and-Machinery-Operations — Support teacher planning only; confirm the current local procedure, supervision and RTO boundary. [reference-AHCv9]

Source inconsistency retained — PI-SI-03
The filename refers to tractors and machinery while the internal task title reads 'Task 3 – Operate tractors'; the source maps both AHCMOM202 and AHCMOM304. Handling: Use the neutral navigator label 'Task 3 — Tractors and machinery' while preserving the internal source title and both source unit relationships.

Teacher/RTO confirmations before local use

ID	Decision to confirm	Due before	Local record / date
PI-TC-01	Confirm local RTO, cohort, selected qualification pathway/electives, calendar, delivery order and planned hours.	Adopting the master navigator as the local delivery program	
PI-TC-04	Confirm the current authorised assessment task destinations, versions, conditions and controlled instruments.	Assessment orientation or formal evidence collection

Boundary: Curriculum and delivery mapping only; not assessment sufficiency, competency, or authorisation to disclose a controlled instrument.

9. Task 4 — Machinery and equipment biosecurity

Stable ID task-4 • Non-HSC task program • Machinery and biosecurity

Source task title: Task 4 – Inspect and clean machinery, tools and equipment to preserve biosecurity
Primary source program: Task 4 - Biosecurity - VET Teaching Program TEMPLATE.docx

Source unit code	Source unit title	Source status	Source indicative hours
AHCBIO203	Inspect and clean machinery, tools and equipment to preserve biosecurity	Elective	10

Learning intentions

- Prepare to inspect and clean machinery, tools, equipment and support vehicles.
- Follow source-mapped inspection and cleaning workflows that preserve biosecurity.
- Complete cleaning work and report inspection results using confirmed local procedures.

Six-column source-mapped delivery sequence

Use these rows to plan and register locally approved teaching and practice. The source supplies workflow headings and intentions, not ready-to-run activities or assessment evidence rules.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary

Learning intentions

- Prepare to observe and handle livestock under confirmed local procedures and supervision.
- Carry out source-mapped livestock checks and basic handling workflows.
- Follow authorised responses for livestock emergencies and veterinary-procedure support.

Six-column source-mapped delivery sequence

Use these rows to plan and register locally approved teaching and practice. The source supplies workflow headings and intentions, not ready-to-run activities or assessment evidence rules.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Prepare to work with and handle livestock**	Delivery intention: Prepare to observe and handle livestock under confirmed local procedures and supervision. **Open source program: TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx** Matched authenticated resource: HSC Study Workbook - Livestock	AHCLSK223; ACHLSK224 Task 22 – Handle and observe livestock	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Oral Communication.
P: ____ A: ____	**Source-mapped workflow**	**Carry out livestock checks**	Delivery intention: Carry out source-mapped livestock checks and basic handling workflows. **Open source program: TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx** Matched authenticated resource: Livestock flash cards	AHCLSK223; ACHLSK224 Task 22 – Handle and observe livestock	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Oral Communication.

P / A	Type	Focus	Teaching and learning	Unit / content	Evidence / boundary
P: ____ A: ____	**Source-mapped workflow**	**Handle livestock under required supervision**	Delivery intention: Follow authorised responses for livestock emergencies and veterinary-procedure support. **Open source program: TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx** Matched authenticated resource: Ipa guidebook	AHCLSK223; ACHLSK224 Task 22 – Handle and observe livestock	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Oral Communication.
P: ____ A: ____	**Source-mapped workflow**	**Complete handling procedures**	Delivery intention: Prepare to observe and handle livestock under confirmed local procedures and supervision. **Open source program: TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx** Matched authenticated resource: Ipa-recording-keeping-booklet-editable	AHCLSK223; ACHLSK224 Task 22 – Handle and observe livestock	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Oral Communication.
P: ____ A: ____	**Source-mapped workflow**	**Deal with livestock emergencies and support authorised veterinary procedures**	Delivery intention: Carry out source-mapped livestock checks and basic handling workflows. **Open source program: TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx** Matched authenticated resource: HSC Study Workbook - Livestock	AHCLSK223; ACHLSK224 Task 22 – Handle and observe livestock	Source workflow is evident. Local practical method, supervision, equipment, PPE, registration and evidence rules remain Teacher/RTO to confirm. Foundation-skill demands named: Oral Communication.

Practical support boundary
The source provides mapped workflow headings, not a locally approved practical. Confirm supervision, facilities, equipment, PPE and procedures through PI-TC-05 before use.

Formative support boundary
Source-mapped foundation-skill demands: Oral Communication. The source identifies foundation-skill demands but does not provide a completed formative activity or populate the Registration column.

Curated task resources

Current source program — TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx

- HSC Study Workbook - Livestock — Plan authenticated HSC teaching, revision or writing support; confirm currency before use. [reference-AHCv9]
- Livestock flash cards — Plan authenticated HSC teaching, revision or writing support; confirm currency before use. [reference-AHCv9]
- Ipa guidebook — Plan supervised livestock learning; confirm local animal-welfare, biosecurity and handling procedures. [current-2026]
- Ipa-recording-keeping-booklet-editable — Plan supervised livestock learning; confirm local animal-welfare, biosecurity and handling procedures. [current-2026]

Source inconsistency retained — PI-SI-02
The source states unit code ACHLSK224 for 'Handle livestock using basic techniques'. Handling: Preserve ACHLSK224 as source-stated, flag source_code_warning and require PI-TC-03 before formal RTO or enrolment use.

Teacher/RTO confirmations before local use

ID	Decision to confirm	Due before	Local record / date
PI-TC-01	Confirm local RTO, cohort, selected qualification pathway/electives, calendar, delivery order and planned hours.	Adopting the master navigator as the local delivery program	
PI-TC-03	Confirm the Task 22 source code written as ACHLSK224; the public navigator must preserve it as source-stated until corrected by the Staffroom owner/RTO.	Using the code in formal RTO or enrolment records	
PI-TC-04	Confirm the current authorised assessment task destinations, versions, conditions and controlled instruments.	Assessment orientation or formal evidence collection	
PI-TC-05	Confirm local procedures, supervision, equipment, PPE, chemicals, livestock, plant, machinery, biosecurity, farm access, environmental controls and work-placement arrangements.	Each affected practical or workplace activity	

Local delivery registration

Local field	Local entry	Local field	Local entry
Planned sequence		Planned start / finish	
Planned hours		Actual start / finish / hours	
Teacher initials		Delivery evidence checked	
Adjustments / access notes		Variance / follow-up	

Boundary: Curriculum and delivery mapping only; not assessment sufficiency, competency, or authorisation to disclose a controlled instrument.

Teacher/RTO to confirm register

This register is deliberately distinct
Do not treat blank local decisions as resolved. Record the decision, evidence or approved procedure, owner and date before the stated point of use. The source program does not make these local decisions for the school or RTO.

ID	Decision to confirm	Due before	Local decision / evidence	Owner	Date
PI-TC-01	Confirm local RTO, cohort, selected qualification pathway/electives, calendar, delivery order and planned hours.	Adopting the master navigator as the local delivery program			
PI-TC-02	Confirm how the HSC filename sequence 3.1-3.7 relates to the source task titles, including the 3.6 file whose internal title reads Task 6.	Local task numbering is printed or copied into assessment records			
PI-TC-03	Confirm the Task 22 source code written as ACHLSK224; the public navigator must preserve it as source-stated until corrected by the Staffroom owner/RTO.	Using the code in formal RTO or enrolment records			
PI-TC-04	Confirm the current authorised assessment task destinations, versions, conditions and controlled instruments.	Assessment orientation or formal evidence collection			
PI-TC-05	Confirm local procedures, supervision, equipment, PPE, chemicals, livestock, plant, machinery, biosecurity, farm access, environmental controls and work-placement arrangements.	Each affected practical or workplace activity			
PI-TC-06	Confirm which optional or historical Staffroom resources remain suitable for the local cohort.	Classroom use of a non-2026 supporting file			

Source inconsistencies retained

ID	Source file	Finding	Required handling
PI-SI-01	3.6 Health and welfare - VET Teaching Program TEMPLATE.docx	The filename is numbered 3.6 but the internal source task title reads 'Task 6 – Care for health and welfare of livestock'.	Use stable ID hsc-3-6 for navigation, preserve the source title separately and require PI-TC-02 before local task numbering is adopted.
PI-SI-02	TASK 22 Handle and observe livestock- VET Teaching Program TEMPLATE.docx	The source states unit code ACHLSK224 for 'Handle livestock using basic techniques'.	Preserve ACHLSK224 as source-stated, flag source_code_warning and require PI-TC-03 before formal RTO or enrolment use.
PI-SI-03	Task 3 - Operate tractors & machinery - VET Teaching Program TEMPLATE.docx	The filename refers to tractors and machinery while the internal task title reads 'Task 3 – Operate tractors'; the source maps both AHCMOM202 and AHCMOM304.	Use the neutral navigator label 'Task 3 — Tractors and machinery' while preserving the internal source title and both source unit relationships.

Assessment and controlled materials

Only the current authorised RTO can confirm assessment task destinations, versions, conditions, reasonable-adjustment arrangements and controlled instruments. This program provides authenticated pointers and delivery architecture only; it does not reproduce or approve assessment contents.

Planned and actual delivery ledger

The source-locked fields are seeded. All local planned and actual fields are intentionally blank. Add dated segment rows locally if required, retaining the stable task ID.

A. Local planning

Stable ID	Task / program	Source units	Source hrs	Planned seq.	Planned start	Planned finish	Planned hrs
hsc-3-1	3.1 Chemicals and weeds	AHCCHM201; AHCPMG201	30				
hsc-3-2	3.2 Work health and safety	AHCWHS202	15				
hsc-3-3	3.3 Environmentally sustainable work	AHCWRK211	15				
hsc-3-4	3.4 Weather observation and reporting	AHCWRK210	15				
hsc-3-5	3.5 Working and communicating in industry	AHCWRK212; AHCWRK213	30				
hsc-3-6	3.6 Livestock health and welfare	AHCLSK222	20				
hsc-3-7	3.7 Plant pests, diseases and disorders	AHCPMG202	20				
task-3	Task 3 — Tractors and machinery	AHCMOM202; AHCMOM304	35				
task-4	Task 4 — Machinery and equipment biosecurity	AHCBIO203	10				
task-10	Task 10 — Electric fencing	AHCINF205	10				
task-11	Task 11 — Farm fencing	AHCINF206	11				
task-12	Task 12 — Provide feed for livestock	AHCLSK229	10				
task-13	Task 13 — Monitor water supplies	AHCLSK227	10				
task-14	Task 14 — Identify and mark livestock	AHCLSK225	10				
task-15	Task 15 — Plant trees and shrubs	AHCPGD207	20				
task-16	Task 16 — Recognise plants	AHCPCM204	20				
task-17	Task 17 — Plant propagation	AHCNSY207	20				
task-18	Task 18 — Soil and growing-media sampling	AHCSOL203	15				
task-19	Task 19 — Pot up plants	AHCNSY205	10				
task-20	Task 20 — Care for nursery plants	AHCNSY206	15				
task-21	Task 21 — Prepare livestock for competition	AHCLSK355	15				
task-22	Task 22 — Observe and handle livestock	AHCLSK223; ACHLSK224	20				

B. Actual delivery and variance

Stable ID	Task / program	Actual start	Actual finish	Actual hrs	Initials	Variance note
hsc-3-1	3.1 Chemicals and weeds					
hsc-3-2	3.2 Work health and safety					
hsc-3-3	3.3 Environmentally sustainable work					
hsc-3-4	3.4 Weather observation and reporting					
hsc-3-5	3.5 Working and communicating in industry					
hsc-3-6	3.6 Livestock health and welfare					
hsc-3-7	3.7 Plant pests, diseases and disorders					
task-3	Task 3 — Tractors and machinery					
task-4	Task 4 — Machinery and equipment biosecurity					
task-10	Task 10 — Electric fencing					
task-11	Task 11 — Farm fencing					
task-12	Task 12 — Provide feed for livestock					
task-13	Task 13 — Monitor water supplies					
task-14	Task 14 — Identify and mark livestock					
task-15	Task 15 — Plant trees and shrubs					
task-16	Task 16 — Recognise plants					
task-17	Task 17 — Plant propagation					
task-18	Task 18 — Soil and growing-media sampling					
task-19	Task 19 — Pot up plants					
task-20	Task 20 — Care for nursery plants					
task-21	Task 21 — Prepare livestock for competition					
task-22	Task 22 — Observe and handle livestock					

C. Delivery evidence, adjustments and follow-up

Stable ID	Task / program	Delivery evidence checked	Adjustments / access notes	Follow-up
hsc-3-1	3.1 Chemicals and weeds			
hsc-3-2	3.2 Work health and safety			
hsc-3-3	3.3 Environmentally sustainable work			
hsc-3-4	3.4 Weather observation and reporting			
hsc-3-5	3.5 Working and communicating in industry			
hsc-3-6	3.6 Livestock health and welfare			
hsc-3-7	3.7 Plant pests, diseases and disorders			
task-3	Task 3 — Tractors and machinery			
task-4	Task 4 — Machinery and equipment biosecurity			
task-10	Task 10 — Electric fencing			
task-11	Task 11 — Farm fencing			
task-12	Task 12 — Provide feed for livestock			
task-13	Task 13 — Monitor water supplies			
task-14	Task 14 — Identify and mark livestock			
task-15	Task 15 — Plant trees and shrubs			
task-16	Task 16 — Recognise plants			
task-17	Task 17 — Plant propagation			
task-18	Task 18 — Soil and growing-media sampling			
task-19	Task 19 — Pot up plants			
task-20	Task 20 — Care for nursery plants			
task-21	Task 21 — Prepare livestock for competition			
task-22	Task 22 — Observe and handle livestock			

Ledger boundary
A completed delivery row records local program implementation only. It is not evidence of assessment sufficiency, a competency determination, an HSC result or approval to disclose controlled material.
